At our event, All Peer Network Day on the Hill, peer support specialists, nonprofit leaders, community members, and advocates from Wellness in the Woods (WITW) and the All Peer Network (APN) will convene at the Minnesota State Capitol to advocate for the recognition, support, and certification of peer support specialists in Minnesota. This event provides an opportunity for direct advocacy, community visibility, and policy influence aimed at improving mental health services statewide.

To prepare, we are hosting two training sessions here individuals will be given the opportunity to learn about how to effectively tell their stories to legislators as well as what important legislation is being pushed at the capital this year. They will be held January 29th (9am-11am) and January 30th (1pm-3pm). The link to join is:
